

Online platform for entrepreneurs and small and medium enterprises (SMEs) all over the world – SME Toolkit

The International Finance Corporation partnering within IBM promotes their SME Toolkit platform.

SME Toolkit is an online platform that helps entrepreneurs and small and medium enterprises (SMEs) all over the world to learn and implement sustainable business management practices and increase their productivity, efficiency, and capacity, as well as improve their access to finance and new markets.

SME Toolkit provides SMEs with free online key business management information, interactive tools, and training resources. This includes over 5,000 free business forms, tools, and how-to-articles, as well as a global business directory, multilingual community forums, and a host of other interactive features.

Current key Facts for SME Toolkit:

- 6.2 million users per year
- 43 Web Sites
- 25 Implementation Partners
- 17 Languages
- 5,000+ content pieces
- 78% of repeat users reported improved business performance as a result of using SME Toolkit (2012 User Survey with over 2,500 respondents)
- 95% of users would recommend SME Toolkit (2015 User Survey with over 2,000 respondents)
